Description

Ashe County Airport is situated between Jefferson and the New River and offers excellent opportunities to explore the outdoors within a short drive.

[New River Outfitters](#) and [Zaloo's Canoes](#) provide rentals to float down the river. The New River provides fishing opportunities for small-mouth bass and stocked Rainbow, Brook, and Brown Trout.

The [New River State Park](#) provides both primitive riverside camping and electric hookup non-riverside camping. Other campgrounds that are slightly longer distance from the airport are [Twin Rivers](#) and [River Country](#), both of which also offer riverside camping and electric/water.

Drop in for a picnic, scenic view, or a short hike at [Mount Jefferson State Natural area](#).
