Description

BFI is located in extremely busy airspace with SeaTac just to the south and Renton to the east. A thorough briefing of the airspace and a review of the [VFR routes](#) before arriving would be a good idea. Note that practice IFR approaches are not allowed.

The Museum of Flight is located on the southwest corner of the field. A few parking spots for fly-in visitors are available. See <https://www.museumofflight.org/visit/parking-and-directions> for details.

The [Hangar Cafe](#) is a short walk outside the gate from the transient parking on the north end of the field.

Transient Parking

There are only four transient parking spots on the airport-owned ramps. Two are in the very northeast corner (see annotations) and two in the southwest corner adjacent to the Museum of Flight parking. **These must be reserved in advance** and have hourly & daily fees. See the tie-down fees section below for costs and contact info for reservations. A detailed map of parking is available here: <https://kingcounty.gov/~media/services/airport/documents/pilot-info/kbfi-transient-parking.ashx?la=en>

As an alternative, there are three FBOs on the field that have parking available to at a variety of fees depending on your aircraft types.

Landing & Tie-down Fees

There's no landing fee for small GA planes, but fees for parking in the airport-owned transient parking can be found here: <https://kingcounty.gov/services/airport/info-tenants/fees-rates.aspx>
