## Description

Lajitas Airport is a privately owned, but open to the public, airport servicing the Lajitas Resort. While the airport is located about five miles from the resort, transportation is provided.

Despite being charted as a public airport, the resort's website states it is only available for use for visitors of the resort with 24 hour notice. It is daytime VFR usage only as well. Landing fees apply to all aircraft, see the landing fees section below.

The resort website has more info on airport procedures as well as activities at the resort:
